34TH BULL SALE

Thursday September 1st 2022 - 1pm

OPEN DAY
Friday
5th August
10am - 4pm

124 BULLS ARE CATALOGUED FOR SALE AT

Calving ease is a feature, with at least 80 bulls better than breed average for all four calving ease traits.

Key sire lines are described in the pages that follow.

PARATROOPER P15 (48 SONS SELL)

Paratrooper sold at our 2019 sale for the Australian record Angus bull price of $160,000. He is contracted to ABS Australia for semen sales.

In his first season of progeny sales last year, two sons passed the record benchmark: Rembrandt R48 at $240,000 & Rocketman R38 at $280,000. Another son set what was then the all-breeds' record price for a yearling bull: Rolls Royce R275 at $110,000.

Daughters in production here are doing everything right. Zero calving difficulties, rebreeding easily, and raising healthy, sappy calves.

The repeatability of the progeny outcome is something we have never experienced to this degree. Paratrooper totally dominates, producing stellar results with females from any genetic background. He transmits precisely the phenotype & structure we target, to fulfill the all-rounder role of Angus in the modern beef industry. Add in a perfectly balanced data set, and it is easy to justify Paratrooper as a once in a lifetime bull, and unequivocally the best breeding bull we have used.

There are several highlight subsets among the Paratrooper sons, including half a dozen raised by daughters of the $150,000 former record priced bull MM Kingdom K35. Another eight come from daughters of the $85,000, 2016 sale topper MM Loch up. And there is a spectacular group of 20 Paratrooper sons with mothers sired by breed legend MM Klooney K42, who sold in 2015 for $80,000. There is fabulous pedigree depth to these bulls!

LOT 1 - PARATROOPER SON AT 17 MONTHS

LOT 8 - PARATROOPER SON AT 17 MONTHS

LOT 2 - PARATROOPER SON AT 17 MONTHS

LOT 18 - PARATROOPER SON AT 17 MONTHS

PARATROOPER P15

MILLAH MURRAH ON SEPTEMBER 1ST 2022.

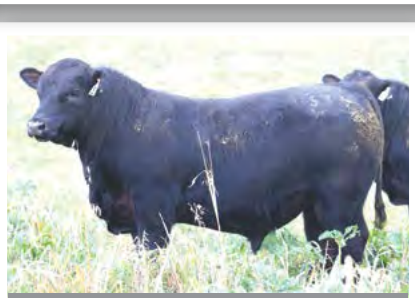
LOT 13 - PARATROOPER SON AT 17 MONTHS

LOT 50 - P15 SON AT 11 MONTHS

LOT 72 - PARATROOPER SON AT 11 MONTHS

LOT 57 - P15 SON AT 11 MONTHS

LOT 49 - P15 SON AT 11 MONTHS



LOT 53 - P15 SON AT 11 MONTHS

LOT 76 - PARATROOPER SON AT 11 MONTHS

LOT 12 - PARATROOPER SON AT 17 MONTHS

LOT 83 - P15 SON AT 17 MONTHS

LOT 85 - P15 SON AT 17 MONTHS

NUGGET N266 (12 SONS SELL)

NUGGET'S DAM – HONEY H159

A product of Hallmark on Theo, Nugget sold for a then all breeds record price for a yearling bull, when he topped our 2018 sale at $54,000 to the Gill family at Merriwa.

Nugget sons were enormously popular at our sale last year. In fact, they would have been our highest averaging sire group ever if Paratrooper had not rained on his parade! An ultra-consistent breeder, Nugget has produced another excellent group of sons for sale this year.

LOT 26 - NUGGET SON AT 17 MONTHS

LOT 88 - NUGGET SON AT 17 MONTHS

Nugget is a wonderful contributor to structural integrity, with several of his daughters selected to join our most recent ET programme. They are moderate framed, extremely easy doing females, with superb skeletal and foot conformation and exceptional udder set up.

124 BULLS ARE CATALOGUED FOR SALE AT

NECTAR'S DAM – PRUE H113

NECTAR N334 (10 SONS SELL)

Heart Angus purchased Nectar as a yearling for $40,000 at our 2018 sale. Like Paratrooper & Nugget, Nectar is transmitting exceptional foot and skeletal structure to his progeny, with early evidence of perfect udder attachment and teat design in the females.

Nectar has a rich maternal heritage. The dam, Prue H113, was the 1st Angus cow in Australia to produce three $40,000+ sons and on the top side, behind Hector, is the fabled Bangadang Lowan A61.

LOT 5 - NECTAR SON AT 17 MONTHS

LOT 121 - NECTAR SON AT 11 MONTHS

LOT 100 - NECTAR SON AT 17 MONTHS

Nectar sons have topped the Heart Angus sale for the past two years against a host of AI sires. Similarly, a Nectar son was the $60,000 high seller at Ardrossan Angus last Spring. At our sale last year, Inglebrae Angus Stud purchased a son, R74. The same day, Springwaters & New Zealand's Twin Oaks Stud joined forces to purchase another Nectar son, R53. We are using both bulls in our programme.

QUARTZ Q29 (6 SONS SELL)

Quartz was the $42,000 2nd high seller at our 2020 sale, to Innesdale Angus Stud in the Gippsland. He has a mighty pedigree for maternal strength. The 1st calf from the magnificent Flower N30, Quartz is sired by the BT Right Time/ Crusader of Stern, acclaimed cow making bull, Kruse Time K400.

We gave Quartz limited use as a yearling prior to sale and wish we had used him more. The six sons that sell are simply beautiful examples of the breed. Soft, deep flanked, and elegant, they glide on the move and will likely feature at the pointy end of the sale averages.

QUARTZ Q29 AT 18 MONTHS

LOT 22 - QUARTZ SON AT 17 MONTHS

LOT 21 - QUARTZ SON AT 17 MONTHS

LOT 23 - QUARTZ SON AT 17 MONTHS

DAM OF QUARTZ Q29 - FLOWER N30

MILLAH MURRAH ON SEPTEMBER 1ST 2022.

BALDRIDGE COMMAND (10 SONS SELL)

Inspected twice in the US, we first used Command lightly in 2017. His small group of sons proved very popular at our 2019 sale.

We have found Command to be the most consistent & reliable sire we have used out of the USA in a very long time. The most obvious contribution he makes is to transmit tremendous thickness and body depth to his progeny in a moderate frame. The Command sons have excellent disposition, with extraordinary doing ability and early maturity pattern. Calving ease is a feature.

LOT 36 - COMMAND SON AT 23 MONTHS

LOT 86 - SON AT 17 MONTHS

LOT 98 - BALDRIDGE COMMAND SON AT 17 MONTHS

LOT 99 - COMMAND SON AT 17 MONTHS

LOT 87 - COMMAND SON AT 17 MONTHS

TE MANIA ULONG U41 (7 SONS SELL)

A back to the future mating choice. Ulong was a sire whose progeny I admired during his heyday at the start of the century. We used him as a sire for an Argentine joint venture at the time.

LOT 25 - TE MANIA ULONG SON AT 17 MONTHS

LOT 82 - ULONG SON AT 17 MONTHS

Progeny quality aside, something that draws us to Ulong is his genetic ability to oppose the normal antagonism between IMF and Net Feed Intake (NFI). Normally strongly negatively correlated, Ulong's high accuracy data set sits at top 16% for IMF and top 3% for NFI. While not obsessive about it, if all else is equal, we think this is something to consider in an increasingly emissions conscious world.

We have had a lot of success winding back the clock to use proven bulls like Hingaia 469 (Kingdom's sire) and Booroomooka Theo (Klooney's sire), two decades after their peak. It has been a similarly rewarding experience with Ulong. Mated thoughtfully he has produced a cracking, true to type set of thick, super easy doing bulls, with early maturity and tremendous calving ease credentials.

LOT 117 - ULONG SON AT 11 MONTHS

LOT 59 - NOBLEMAN SON AT 11 MONTHS

LANDFALL NOBLEMAN N106 (8 SONS SELL)

LOT 109 - N106 SON AT 11 MONTHS

Nobleman was the 2nd high selling bull at Landfall's record 2019 sale and incorporates a different bloodline for us.

A later maturing type, he diffuses tremendous body length in the progeny. We have mated Nobleman in a complementary fashion to earlier maturing dams. The outcome is some lovely young sires with moderate maturity, explosive early life growth performance, thick tops and the desirable silky skin and hair type that distinguishes our herd.

124 BULLS ARE CATALOGUED FOR SALE AT MILLAH MURRAH ON SEPTEMBER 1ST 2022

MILESTONE M308 (6 SONS SELL)

Milestone is a Matauri Reality son that adds substantial top line strength by comparison to his influential father. He is from a beautifully made Doc F159 dam descended from the impact Rado D136 line. Some massive power bulls feature in the two-year-old section of the sale.

MILESTONE M308

LOT 34 - M308 SON AT 23 MONTHS

LOT 44 - MILESTONE SON AT 23 MONTHS

MILESTONE'S DAM RADO H331

QUIXOTE Q96

QUIXOTE Q96 (4 SONS SELL)

Only four Quixote sons appear in the yearling section, these are the 1st to sell by our $60,000 2020 sale topper.

A Chisum 255 son, from the superb Brenda N8, Quixote is seeing widespread AI usage across the country, with more sons to appear at sales in the years ahead.

SIRE OF QUIXOTE - SPICKLER CHISUM 255

DAM OF QUIXOTE Q96 - BRENDA N8

LOT 66 - QUIXOTE SON AT 11 MONTHS

BULLS BY OTHER SIRES

LOT 35 – KLOONEY SON

LOT 42 – POWER POINT SON

LOT 47 – K400 SON

LOT 31 – K400 SON

LOT 122 – LOCH UP SON (11 MONTHS)

FEMALE SALE

On April 20th 2023, Millah Murrah will conduct its first female sale in 5 ½ years.

Approximately 200 Registered breeders will be presented for sale in an extraordinary offering, featuring multiple numbers of proven Donor cows and full age group selections.

Large scale Embryo Transfer programmes have been in full swing all year to allow the release of so many of our very best females.

SALE DETAILS

COVID 19: We will adhere to any COVID rules at the time. A significant expansion to seating at the venue and the open air layout minimizes risk of disease transmission.

REMOTE BIDDING: We have already collected many still images of the bulls for the catalogue and will endeavor to publish videos of the majority by sale time. The sale will be interfaced with Elite Livestock Auctions.

JBAS STATUS: Millah Murrah has been rated MN3 or JBAS8 since 2001. Cattle are allowed entry to all states.

PRE-SALE VIDEO: A comprehensive video of the bull team, taken July 12th, is available at our website **www.millahmurrah.com**

BRAND VIDEO: A more general video about the Millah Murrah programme is available at our website or via this QR Code.

SEMEN TESTING: Semen testing (including laboratory morphology examination) is conducted on the bulls.

FREE FREIGHT: Offered locally and to all major centres in NSW, QLD and Victoria.
