# 175 registered breeders will be offered for sale at 11am on April 20th, 2023.

This is the first Stud Female sale at Millah Murrah since 2017.

It features over 140, two to three-year-old, R and S drop females - siblings to our world record breaking bull drafts of 2021 and 2022.

The sale also contains over 30 mature M and N drop cows. Aged six and seven years, they are the force behind those record results. Many are donor cows, offered in the prime of their life, with well over \$3 million in collective progeny earnings.

Over 100 of the cows sell open, with a 2023 born calf at side. None has been flushed since calving. All sell primed for ET work or natural joining at the completion of the sale. The calves have already been registered at Angus Australia, with DNA submitted for single step TACE analysis and parent verification.

75 females sell PTIC to calve in Spring. All pregnancies have been sexed and aged to AI dates. For buyers there is no doubt about the article for sale.

Like their mothers, the calves at foot and pregnancies in this sale result from thoroughly informed phenotype and genotype matching, based on relentless first-hand research of the Angus breed worldwide. Dozens of them would normally sell at the top end of our bull sales. No doubt there are future AI sires among them. Many are "first progeny" prospects from sires set to dominate the Angus landscape like Rocketman R38, Rembrandt R48, Rector R53, Taimate Roy R38 and Milwillah Ramjet R1029.

The cows and heifers that raise these calves carry a who's who of the best Angus maternal bloodlines from recent generations. Hallmark, Hector, Kingdom, Klooney, Loch Up, Marlon Brando, Nectar, Nugget, Paratrooper, Power Point, Quartz, and Quixote all feature in the offering.

Our female sales only occur every five years. **This sale represents a true sharing of the herd, with access to the very best we own.** Excluding the maiden heifers and recipient cows, if we were to sell everything not included in the sale, and retained what is to be offered, it would leave us on a similar footing.

We have been careful not to impact future bull sales. They will continue as normal, with 140 to sell in September and a similar number in 2024.

In the 12 years since 2011, Millah Murrah bull sales have broken the breed average price record eight times. This has included four new benchmarks for the entire Australian beef industry. The record priced Angus bull benchmark has been raised three times in the process.

The sisters, and many of the dams of these bulls, are the animals that sell - and there's plenty of them.

Whether you are in the mainstream bull supply business, just starting out, or simply want to breed a few bulls for your own commercial herd, this is an extraordinary opportunity that should not be missed.

We cannot wait to host visitors for this special event.

**SALE: 11am Thursday April 20th 2023. (Gates Open 6.30am including cooked breakfast)**

**PRE SALE VIEWING: 3pm Wednesday April 19th (followed by BBQ meal at the sale ring)**

The full catalogue will be up at our website from March 28th. To be sure of receiving a hard copy, please email, text, or post us your full postal details.

Ross & Dimity Thompson and Trent Walker and Families
