

MILLAH MURRAH ANGUS

22ND ANNUAL BULL SALE

at "Goonamurrah" Bathurst
Thursday, 2nd September, 2010 at 1.00pm

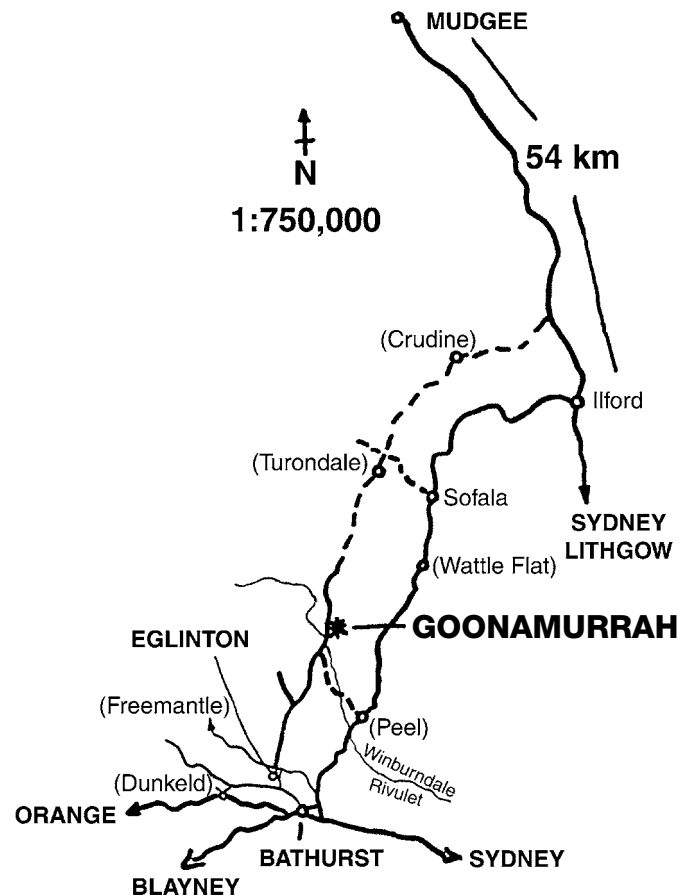

(N.B. from 12.45pm bulls will be moving to pen up yards)

82 HBR & APR Angus Bulls

DIRECTIONS

From Bathurst: Follow Durham Street, past All Saints College, to Eglinton. From Eglinton, take the Hill End via Turondale Road, for 20 km, "Goonamurrah" is well signed on the right hand side.

From Mudgee: Take Sydney Road. At Ilford turn right on Bathurst Road. Go through Sofala (about 28 km from Ilford), then through Wattle Flat. About 55 km from Ilford, look out for a bridge over Clear Creek and immediately turn right through the small locality of Peel. Follow this road, which is mainly gravel, for about 10 km. At a T-junction, turn right on to the Turondale Road, follow this for 5 km and "Goonamurrah" is on the right hand side.

Account: Goonamurrah Pastoral Company

MILLAH MURRAH ANGUS

A BALANCED APPROACH TO BREEDING ANGUS

People talk about “balanced breeding” a lot these days. And we believe it is a very healthy approach to take, especially with the Angus breed, whose all round attributes are its greatest strength. So at Millah Murrah, what does balance and balanced breeding mean?

PHENOTYPE: Balancing phenotype is our main focus. The Millah Murrah type accounts for both the difficult Australian environment where the cattle are raised and the requirements of the markets Australian beef supplies. To balance these factors we target an animal with rapid early growth and the ability to finish quickly once maturity is achieved. The doing ease of the cow herd has always been our number one priority.

GENETICS: As far as genetic selection is concerned, we know that a degree of line breeding to the best bloodlines gives consistency of type and performance. But equally we are mindful of the need to incorporate outside blood to progress the herd and avoid the “breeding down” associated with too much concentration of one or two lines. When you read the catalogue, our balanced genetic approach is clear. We lay the foundations with bulls like Hingaia 469, New Design 036 and Woody W100 and into that mix introduce well considered outside lines like Neutron, Equator and Alliance.

OBJECTIVE PERFORMANCE: The third area of balance concerns objective measurement. As a draft, we believe the bulls described in this catalogue carry **optimum performance balance, for 2010, recognizing Angus’ broad role in modern beef production.** We are very wary of going too far out on a limb with EBVs and type, preferring to leave the Euros to do their job and Wagyu’s to do theirs. Angus’ popularity is driven by its all round abilities and that has been the Millah Murrah focus for 41 years.

The average EBV’s for the bulls in this sale are a strong set of numbers, without distorting extremes at either end of the spectrum, and therefore offer a degree of security for people not fully versed with Breedplan. In other words, if you select your bulls on looks alone here, you won’t end up with a performance “lemon”.

SALE BULL AVERAGE EBV’s (June 2010):

Trait	C E dr	C E dtrs	BW	600G	Milk	SC
MM Avg	0.2	1.0	4.3	97	13	2.0
Breed Avg	0	0.4	4.6	86	12	1.2

Trait	EMA	Rump Fat	Rib Fat	RBY	IMF	\$CAAB
MM Avg	3.2	0.4	0.4	0	1.4	98
Breed Avg	2.8	0.1	-0.1	0.2	0.8	86

A word of caution regarding \$ indices. The high values of the \$ indices in this catalogue are a potential selling point, but we want readers to appreciate their shortcomings. Targeting \$ indices as a breeding guide is as risky as single trait selection and, we believe, a highly flawed policy. The indices are simply the range of EBV’s, put through a computer model, to come up with a **single** \$ value, based on **specific** market and production assumptions. Put like this, most would agree, they are a long way removed from the real world of beef production.

The approach we encourage is to identify the traits that **drive profit for you** and look at the EBVs. Incorporate the objective estimates with what your eyes tell you about the animals and make a decision from there. Physical appearance is the supreme factor in our breeding decisions, we then fine tune with EBVs, with a wide range of acceptable numbers if the animal’s phenotype appeals.

For those who are inexperienced in the application of Breedplan to commercial breeding, please do not hesitate to contact us prior to the sale to discuss it. An alternative is to refer to our web site www.millahmurrah.com and visit the Breedplan section for a quite detailed discussion.

MILLAH MURRAH ANGUS

SALE DATE AND PRIOR INSPECTION TIME:

Selling will commence at 1.00pm on Thursday 2nd September 2010. Undercover shelter is provided. Bulls may be inspected from 10.00 a.m. on the morning of the sale, or at any other time by arrangement with the agents or vendors.

SELLING SYSTEM:

Sale of animals will be conducted under normal auction conditions. Please check with the Selling Agents to obtain a buyer's number if you are considering making a purchase. Successful Purchasers are requested to give written advice to the Selling Agents, re: transport arrangements, at the conclusion of the sale.

REBATE:

2% rebate to outside agents **registering BULL buyers, in writing, PRIOR to the sale**, and settling on their behalf within 7 days of the date of invoice.

PHONE BIDDING:

Sale day land line phone number is (02) 6337 1157. We have also installed boosters to allow limited use of mobile phones at the sale venue. If you intend purchasing over the phone, please contact the selling agents to reserve a line.

GST:

All animals are sold **exclusive** of GST.

INSURANCE:

Selling agents will be available on sale day to organise all insurance requirements.

REGISTRATION:

Ownership transfer of bulls will be registered by the vendors with Angus Australia, provided accurate transferee details are supplied with the Buyers Instruction form.

CATERING:

Complimentary lunch will be available

PHYSICAL EXAMINATION OF BULLS:

All bulls offered for sale will be vet checked near sale date and only sold if deemed satisfactory for the following inspections:

- Palpation of internal genitalia
- Palpation of Scrotal Contents
- Visual inspection of overall structure, including feet
- Visual inspection of locomotive ability

FEEDING & MANAGEMENT:

Bulls have been grazing oats since late March with canola hay for roughage. The kind season has meant that we have been able to prepare the bulls entirely without grain. The bulls have been handled with dogs, an ATV, utilities and on foot. We know their temperament individually and are confident that under normal circumstances each animal in the sale is of sound temperament. Understandably each year on sale day an occasional bull misbehaves due to the big change to the yard area and the pressures of strange people invading their space. No animal has had its feet trimmed.

HEALTH QA:

The bulls are ready for immediate use. We have treated the bulls according to the PfizerSTAR QA program, which means they have been:

- Ear notch tested as non shedders of Pestivirus
- Double vaccinated with Pestigard to protect them against Pestivirus
- Double vaccinated with Vibrovax to protect them against Vibriosis
- Double vaccinated with 7 in 1.

Their 2nd vaccinations were administered on 23rd June 2010. All bulls were treated with Eprinex Pour On on May 22nd 2010.

Millah Murrah has been rated MN3 under the BJD MAP program since 2001. Certificate number NC10022.

RECESSIVE GENETIC CONDITIONS:

All the animals in this sale are free by pedigree or test of AM (Arthrogyrosis Multiplex or "Curly Calf Syndrome"). Five bulls are tested carriers of NH (Neuropathic Hydrocephalus). These bulls are at Lots 20, 35, 37, 46 & 71. Each lot has its status with respect to these genetic defects noted on the 4th line.

SEMEN RIGHTS:

All bulls sell with 100% semen marketing rights attached. Millah Murrah reserves the right to collect up to 200 straws of semen from any bull in the sale for use within herd. Semen collection at Vendor's expense and Purchaser's convenience.

MILLAH MURRAH ANGUS

BULL HANDLING:

On arrival at their new home it is important a suitable mob of animals is yarded to greet the bull and minimize the stress on the bull. Suitable animals include pregnant cows, steers, but certainly not other bulls.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the early stages of joining when the majority of problems occur and early intervention can minimize the damage to the bull and to conception rates.

When joining is complete, bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get over fat.

WARRANTY

The vendor warrants that:

1. Bulls are fertile and capable of natural service within 6 months of date of sale to the purchaser ("Warranty Period"); and
2. bulls are of the parentage as catalogued.

The vendor will either:

1. Provide a satisfactory replacement or
2. Provide a credit for use at the next Millah Murrah Angus bull sale equal to the purchase price (excluding any costs and expenses of the purchaser in taking delivery) minus salvage value:

Where:

1. the purchaser claims a bull is infertile, upon purchaser submitting a veterinary report after the expiration of the Warranty Period stating that the bull is infertile or incapable of natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the bull has suffered any injury or illness during the Warranty Period which could have affected his breeding ability. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring.
2. the purchaser claims the bull is not of the parentage catalogued, upon purchaser submitting a DNA test or blood test within the Warranty Period indicating that the animal is not of the stated parentage.

The purchaser acknowledges that the purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the bulls supplied are reasonably fit for any purpose for which they are being acquired.

To the extent permitted by law all other conditions and warranties implied by law in respect of the state, quality and condition of the bulls which may apart from this clause be binding on the Seller are excluded.

The Seller has no liability (including liability in negligence) to any person for any loss or damage consequential or otherwise suffered or incurred by that person arising from the sale of the bulls to the purchaser.

HEALTH & SAFETY OF VISITORS TO OUR SALE (RULES & ADVICE)

All the sale bulls have been screened for temperament and are quiet to handle under normal circumstances. However there are inherent risks associated with cattle handling.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK CHILDREN MUST NOT ENTER THE YARDS

People entering the yards are at risk of injury. Be especially alert for bulls fighting and if one is playful with you, do not respond by patting his head. What a bull considers a playful nudge can break human legs! We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Remember the quietest bull is in fact an unpredictable animal.

Do not crowd the bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily. If you feel threatened whatsoever, please do not act hardy. The stigma of a person screaming as he dives over a fence is a preferable option to a broken body resulting from "standing up to" an unfamiliar beast.

Please call upon any of the Elders agents for an escort through the bulls if required. The days of bravado with stock have passed under current OH&S legislation.

The bulls are ear tagged with their Lot number. The Lot number and corresponding freeze brand ID are located on the top line of each bull's details in the catalogue. If you are having trouble getting a look at the ear tag, check the bull's freeze brand and refer to the catalogue to confirm his Lot number.

IMPORTANT NOTICES FOR PURCHASERS

~ SALE CATALOGUE DISCLAIMER ~

"All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information."

~ DNA PATERNITY VERIFICATION ~

"Please note that DNA paternity (sire of sale animal) verification has not been conducted on some or all of the animals listed in this catalogue. It is a requirement of the Angus Society of Australia that all bulls used to sire calves for registration in the Society's Herd Book Register, Red Angus Register or Angus Performance Register must have been DNA paternity verified if they are born in or after the 'Y' year (2003). Buyers intending to use bulls listed in this catalogue to produce calves to be registered in the Angus Society's Herd Book Register, Red Angus Register or Angus Performance Register should conduct DNA paternity verification on those bulls before they are used for breeding."

~ PRIVACY INFORMATION ~

The animals included in this catalogue are registered with the Angus Society of Australia. The buyer is encouraged to have transferred to it the registration of any animals purchased. In order for this transaction to be effected, the buyer will need to provide certain personal information to the Society and consent to the collection and disclosure of that information by the Society in certain circumstances, if the buyer is a member of the Society. If the buyer does not wish for his or her personal information to be collected and disclosed by the Society, the buyer must opt out of the option to consent by completing the form included below and forwarding it to the Society. If the form is not completed, the buyer will be taken to have consented to the collection and disclosure of that information by the Society.

BUYER'S OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO THE ANGUS SOCIETY OF AUSTRALIA

If you do not complete this form, you will be taken to have consented to the Angus Society of Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its databases and disclosing that information to its members on its website, if the buyer is a member of the Society.

*I, the buyer of animals with the following registration numbers
..... from Society
member (name) do not consent to the Angus Society
of Australia using my name, address and phone number for the purposes of effecting a change of
registration of the following animal(s) that I have purchased, maintaining its databases and
disclosing that information to its members on its website.*

Signature:

Date:

*Please forward this completed consent form to the Angus Society of Australia, Glen Innes Road,
Locked Bag 11, Armidale NSW 2350. If you have any queries, please telephone 02 6772 3011 or
e-mail office@angusaustralia.com.au.*
