ADDITIONAL LOT DETAILS

LOT 118A: MILLAH MURRAH UNIFY U523^{PV} IDENT: NMM23U523 DOB: 08/08/2023 APR

Traits Observed: GL,CE,BWT,200WT,400WT,SC,Scan(EMA,Rib,Rump,IMF),DOC,Genomics

AMFU,CAFU,DDFU,NHFU

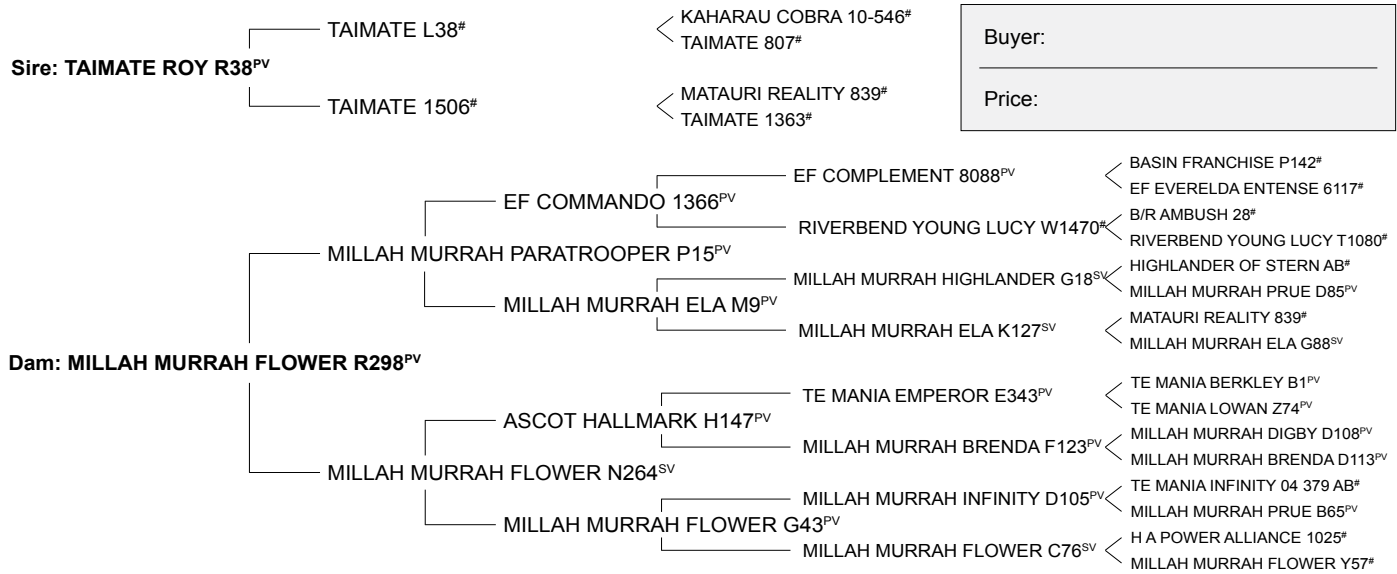

Very similarly bred to the star Lot 22, with Paratrooper & Nectar combining. Chisum and Klooney further down the pedigree line add to the classy ancestry, with outstanding progeny outcomes expected. Strong heifer mating option.

INCORRECT DETAILS SHOWN IN SALE CATALOGUE. CORRECT DETAILS FOR LOT 79 SHOWN HERE.

Similar type to the previous bull through the ring, with similar credentials in terms of mating versatility. They'd make an excellent joining pair.

* All bulls sell ready for immediate use. Lot 50 had 66% normal sperm when tested on August 20th. 27% of his abnormal sperm were V & T's (above the 20% acceptable threshold). Veterinary advice is that while he should be fertile as it stands, it would be prudent to retest the bull in mid-October. The buyer may leave the bull here until October for retesting as outlined on page 3 of the catalogue, without negating the free delivery service. Alternatively, the buyer may take the bull with next week's deliveries and use him right away. Vendors will cover costs of semen testing at his new home in mid-October.

❖ Lot 129 presented lame this morning with a foot infection. He has been treated. Recovery is expected within a week. He will be offered for sale but will not come through the ring. Invoice will not be charged without full recovery. Free delivery terms will apply.
